Calcutta, the 27th October 1953.

First Forecast of Winter Rice Crop of West Bengal for 1953-54.

[**Note.**—The figures of last year except those of Darjeeling district have been taken from the last year's Final orecast of Winter Rice and are based on the results of ample Survey conducted by the State Statistical Bureau. s the Sample Survey estimates for this year have not ot been made available to us, the figures shown for this ar are based on the reports received from the staff of e Directorate of Agriculture. As the Sample Survey not carried out in the hilly subdivisions of Darjeeling strict, the estimates of this district for last year have en framed by this Directorate.]

Season.—Rainfall in the early stage facilitated ie preparatory tillage and the sowing and transplantation of the crops commenced generally in ormal time though a short spell of drought from id-May to mid-June retarded the sowing in some districts but a fairly widespread rainfall starting from the latter part of June helped to carry on the operation in full swing. Subsequent weather conditions have been quite favourable for the cultivation and growth of the crop. The crop has been slightly damaged in certain areas in Midnapore, Jalpaiguri and Cooch Behar by flood and insect pests. The present outlook of the crop is quite bright.

Area and yield.—8,859,400 acres have been estimated to be under Winter Rice this year compared to 8,338,500 acres and 8,801,600 acres reported respectively in the corresponding and Final Forecast of last year. The average yield of cleaned rice per acre for the State as a whole is estimated at 11·76 maunds this year compared to 9·30 maunds and 10·78 maunds reported respectively in the corresponding and in final forecast of last year.

DIRECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 18th December 1953.

Second Forecast of Winter Rice Crop of West Bengal for 1953-54.

[Note:—Last Year's figures of both area and yield have been taken from the final forecast of winter rice for 1952-53 which was based on the results of sample survey conducted by the State Statistical Bureau except for Darjeeling district, the estimates whereof were made by this Directorate. The sample survery for this year is under way and uptill now only the first estimates of area under winter rice based on analysis of Sub-Sample "A" have been made available. Accordingly, the estimates of area for this year shown in this forecast are based on these first estimates of sample survey except for Darjeeling of which district we have used the estimate of this Directorate. The figures of outturn are eye-estimates of the staff of this directorate, it being too early for estimates from the results of crop cutting experiments.

Season.—As reported in the first forecast, rainfall in the early stage facilitated the preparatory tillage and helped the cultivators start sowing and transplatation in normal time. In some districts a short spell of drought intervened but with fairly widespread rainfall occurring later transplantation was successfully completed The subsequent weather conditions have been favourable except in Jalpaiguri and Malda and the crop has been thriving well everywhere except in certain pockets where attacks of paddy pests and disease have occurred.

Area and Yield.—89,70,300 acres are estimated to be under winter rice this year compared to 86,37,000 acres and 88,01,600 acres reported respectively in the corresponding and in the final forecast of last year.

The total outturn of cleaned rice for the State as a whole is estimated at 39,07,100 tons this year compared to 36,25,400 tons and 34,84,700 tons reported respectively in the corresponding and in the final forecast of last year.

The average yield rate of cleaned rice per acre for the State as a whole is estimated at 11·856 maunds this year compared to 11·430 maunds and 10·780 maunds reported respectively in the corresponding and in the final forecast of last year.

S. MUKHERJI,
for Director of Agriculture, West Bengal.

DIRECTORATE OF AGRICULTURE WEST BENGAL

Calcutta, the 18th August 1953.

Preliminary forecast of Jute Crop of West Bengal for 1953 season.

The preliminary forecast deals with the area and the condition of the crop in the early part of the jute-growing season. The estimate of outturn is shown in the final forecast.

Area sown.—In West Bengal 568,900 acres are estimated to have been sown with jute crop this year as against 727,900 acres and 836,300 acres reported respectively in the preliminary and in the final forecast of last year.

This decrease in acreage is due to drought during the sowing time and fall in the price of jute.

Season.—With severe drought prevailing in April and May in most of the districts, the cultivation of jute could not be taken up in the right time. The sowing was delayed and the crop already sown at places was also adversely affected by the drought. The weather conditions in Jalpaiguri and Cooch Behar where there was no drought have however been quite favourable for the cultivation and growth of the crop. There was fairly widespread incidence of jute semilooper and caterpillar in the districts of 24-Parganas, Hooghly, Burdwan, Nadia, Murshidabad, Malda and West Dinajpur. Prompt plant protection measures and heavy downpour have saved the crop from any appreciable damage. There has been some damage to the crop in Murshidabad, Burdwan and Midnapore owing to flood. The present condition of the crop appears fair.

H. K. NANDI,
Director of Agriculture, West Bengal.

DIRECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 5th January 1954.

Final Estimate of Jute Crop of West Bengal for 1953-54.

Note.—The estimates of area and production of Jute both for last year and this year given herein are exclusive of estimates of Mesta. As the figures reported in the "Final Forecast of Jute, 1952" included estimates of Mesta also, the figures given in the "last year" column of this estimate do not tally with the figures reported in "this year" column of the final forecast of last year.]

Season.—As already reported in the preliminary forecast, severe drought prevailed in April and May in all districts except Jalpaiguri and Cooch Behar and the sowing was delayed in most of the districts. With later rainfall weather condition turned favourable. The crop was affected to some extent by flood and heavy rains.

Area and yield.—5,34,700 acres have been estimated to be under jute crop this year as against 8,19,800 acres, the final figures of last year. The decrease in acreage is due to drought and prevailing low price of jute at the sowing time.

The total yield of the crop has been estimated at 14,98,400 bales this year as against 23,63,100 bales last year. The average yield per acre is estimated at 2·80 bales this year as against 2·88 bales last year.

H. K. NANDI,
Director of Agriculture, West Bengal.

Calcutta, the 30th January 1954.

DIRECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 30th October 1953.

inal Forecast of Potato Crop of West Bengal for 1952-53.

Vote.—The figures of last year and this year in respect of winter potato except those of Darjeeling district as shown in the forecast are based on the results of sample survey conducted by the State Statistical Bureau. The estimates of Darjeeling for both this year and last year shown in this forecast have been estimated by the Directorate of Agriculture, West Bengal. The figures of summer potato shown in this forecast are based on the reports received from the staff of this Directorate.]

Season.—The weather conditions were not vourable at the sowing time in the districts of urdwan, Jalpaiguri and Darjeeling while in other istricts the weather was favourable. The subsequent weather conditions were however favourable or the growth of the crop in the districts of 4-Parganas, Murshidabad, Burdwan, Midnapore nd West Dinajpur.

Area and yield.—*Winter potato*—96,300 acres are estimated to be under winter potato this year compared to 100,500 acres, the final forecast of last year. The total outturn of the crop for the State as a whole is estimated at 412,800 tons this year compared to 434,900 tons of last year. The average outturn per acre of the crop for the State is estimated at 116·69 maunds this year compared to 117·78 maunds, the final estimate of last year. The decrease in area is reported to have been due to unfavourable weather condition at the sowing time and low price of jute which caused some reduction in the income of cultivators for harvesting in potato cultivation.

Summer potato.—Summer potato grows only in the hilly regions of Darjeeling district. The total area under summer potato in these regions is estimated at 4,100 acres this year compared to 3,500 acres last year. The outturn of summer potato is estimated at 8,300 tons this year compared to 7,100 tons last year. The average outturn per acre of the crop is estimated at 55·33 maunds this year compared to 55·00 maunds last year.

Draft bye-laws under section 527 (70) of the Calcutta Municipal Act, 1951, regulating the disposal of clothings, beddings, etc., brought before the burning ghats, burial grounds or other places for the disposal of the dead.

(1) The nearest relatives of a deceased person accompanying his corpse to a burial or burning ground or other place for disposal of the dead or present at the time of burial, cremation or disposal thereof by other method and particularly the person signing the Register of Deaths as an informant, shall cause all cloth, bedding and other articles [excepting ornaments] which are [carried] with the dead body or the bier, to be destroyed to the satisfaction of the Sub-Registrar of the said burial or burning ground or other place for the disposal of the dead. No such article shall on any account be permitted to be taken out by any person from and outside the burning ghat or burial ground or other place for the disposal of the dead.

(2) Bulky articles, such as cots, biers or carriages in which dead bodies are borne to places for the disposal of the dead shall, if not destroyed, be thoroughly disinfected, whether the dead bodies carried infection or not, to the satisfaction of the Sub-Registrar. A charge shall be payable for such disinfection as the Corporation may from time to time fix.

(3) Any such person desirous of making a gift of new or unused clothing, bedding or other articles to priests, barbars, *domes* or such other persons shall bring the same in such manner as not to be in contact with the dead body or the bier and may give away the same with the permission [in writing (in a form to be prescribed by the Commissioner for the said purposes)] of the Sub-Registrar of the said burial or burning ground or other place for the disposal of the dead. The decision of the Sub-Registrar that the clothing, bedding or article proposed to be gifted is or is not new or unused and has or has not come in contact with the dead body or the bier, shall be final.

(4) Every person found guilty of a breach of any of the foregoing bye-laws shall be punished with a fine which may extend to Rupees fifty.

DIRECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 26th February 1954.

Third and Final Forecast of Winter Rice Crop of West Bengal for 1953-54.

[*Note*—The figures of acreage and production of winter rice for both last year and this year, except for those of Darjeeling district, as shown in this forecast, are based on the results of sample surveys and crop cutting experiments conducted by the State Statistical Bureau, West Bengal. As the sample survey is not carried out in the hilly subdivisions of Darjeeling district, the estimates of this district for both last year and this year have been estimated on the basis of figures furnished by the State Statistical Bureau, in respect of Siliguri subdivision and the reports of the extension staff of the Directorate of Agriculture, in respect of other subdivisions.]

Season.—As reported in the first and second forecasts, the weather in the early stage was favourable except for a short spell of drought from mid-May to mid-June. A fairly widespread rainfall starting from the latter part of June helped transplantation to be completed successfully almost everywhere., Some damage to the crop by flood was reported from Midnapore, Jalpaiguri and Cooch Behar. Subsequent weather conditions were favourable in almost all the districts and the crop was thriving well. Attacks of plant disease and insect pests to some extent affected the crop during its growth period in Jalpaiguri and Cooch Behar districts. The total production estimated this year, however, records an increase over last year and other post-partition years.

Area and yield.—89,33,900 acres have been estimated to be under winter rice this year as against 88,01,600 acres last year.

The total production of cleaned rice for the State as a whole is estimated at 46,79,800 tons this year compared with 34,84,700 tons last year.

The average yield of cleaned rice per acre for the State as a whole is estimated at 14·26 maunds this year as against 10·78 maunds last year.

The increase in production this year is due to various measures adopted for increasing food production including the use of fertilisers and very favourable weather conditions.

S. N. MUKHERJEE,
for Director of Agriculture, West Bengal.

(d) Failure to secure a contract after twelve successive tenders had been submitted or during the period of three years which ever is less.

(e) Failure to perform a contrct or contracts satisfactorily and in accordance with the contractual obligations.

Blacklisting, banning, and suspensions of contractors.

The punishment of "blacklisting", "banning" and "suspension of business" are more severe than removal in so far as the firm so dealt with will not be eligible to do business with Government as explained below:—

Explanation.—(i) Blacklisting—When firms are found guilty of malpractices like bribery, corruption, etc., they are placed on blacklist. This may be either for a limited period or for an indefinite period and involves an immediate cessation of business with the Public Health Engineering Directorate and possibly with other departments of the Government of West Bengal.

(ii) Banning—Where blacklisting is not justified the pupnishment of banning is sometimes inflicted. This is normally of a specified period and involves a cessation of business with the Directorate of Public Health Engineering only.

(iii) Suspension—When a *prima-facie* case of corruption, etc., is made out against a firm, business with them in the Directorate of Public Health Engineering is "suspended". This is a *ad interim* order pending final decision.

Draft bye-laws framed under section 527 (46) of the Calcutta Municipal Act, 1951, regulating the use of a municipal slaughter-house.

1. No person, whether a butcher or not, shall have access to a slaughter-house except for the purpose of slaughtering animals intended for human food or for the purpose of skinning, cutting up and cleaning carcasses of animals so slaughtered therein, or purchasing meat, heads, skin or offal as hereinafter provided.

2. No person shall, without or otherwise than in conformity with the terms of a license granted by the Superintendent of a slaughter-house in this behalf, have the right to slaughter animals in such slaughter-house.

3. (a) Every person who intends to have the right to slaughter animals in a slaughter-house shall apply to the Superintendent of such slaughter-house for a license. Every such application shall be accompanied by the trade license obtained by him.

(b) The Superintendent may, in his discretion, grant or refuse to grant such license. In case of refusal of license, reasons for such refusal should be recorded in writing.

(c) Every such license shall have effect and continue in force for the whole of the financial year for which it is granted and shall state that it is granted subject to the terms of section 458 of the Act.

(d) There shall be paid for every such license an annual fee of Rs. 5.

4. Every person to whom a license is granted under bye-law No. 3(b) shall apply to the Superintendent for a ticket for each person who is to act on his behalf or as his assistant in the matter of slaughtering animals during the period of the license. The ticket shall specify the name of the person in respect of whom it is given and shall be issued free of charge and shall remain in force for the same period as the license granted to the licensee.

5. No license or ticket issued under the foregoing bye-laws shall be transferable.

6. Every licensee or ticket-holder shall produce his license or ticket, as the case may be, whenever he shall be required so to do by the Commissioner or by the Superintendent or other municipal officer. Any person who fails to do so may be summarily removed from the slaughter-house by any municipal officer or servant.

7. Animals shall be slaughtered in a slaughter-house only on such days and during such hours as shall from time to time be fixed by the Commissioner. A notice signed by the Superintendent and countersigned by the Health Officer shall be affixed in a conspicuous place in the slaughter-house naming such days and hours.

8. No person other than licensees, ticket-holders, Councillors, Aldermen or municipal officers shall have access to a slaughter-house during the hours fixed for slaughtering animals and during the process of skinning, cutting up, cleaning and stamping the carcasses.

9. Every animal brought to a slaughter-house or a stock-yard appertaining thereto shall be kept at such place within the premises as the Superintendent may direct, and shall be secured in such a manner as shall effectively prevent it from breaking loose or causing injury to other animals without causing unnecessary suffering to the animal itself.

10. (i) Every animal brought for slaughter at a slaughter-house except goats and sheep shall pass through the stock-yard appertaining thereto, if such stock-yard is available for use or occupation, and shall be kept there for a period of not less than twenty-four hours before slaughter, during which time or any subsequent extension thereof, the animals shall be provided with adequate food and water at the expense of the Corporation:

Provided that no animal shall be kept in the stock-yard for more than ten days.

(ii) The fees for admission into the stock-yard, which shall be in addition to any slaughtering fee for each animal that may from time to time be fixed under clause (iv) of section 456 shall be charged in accordance with the scale of fees which has been or may from time to time be fixed in this behalf under clause (i) of that section.

11. Every animal brought to a slaughter-house or a stock-yard appertaining thereto shall be carefully examined by the Superintendent, and no animal shall be slaughtered until it has been so examined and declared by the Superintendent to be free from disease.

12. For the slaughtering of each animal in a slaughter-house a fee shall be paid at such rate as may from time to time be fixed by the Corporation under clause (iv) of section 456.

13. No animal shall be slaughtered at a slaughter-house—

(i) if upon examination it is found to be diseased or shows symptoms of or is suspected of being diseased;

(ii) if it is or is suspected to be with young or in milk;

(iii) if it is a lamb or kid below the age of four months;

(iv) if it is a calf other than one vaccinated at the Government and Municipal Vaccine Depot.

14. No person shall bring an animal to a slaughter-house or a stock-yard appertaining thereto—

(a) if it is old, debilitated or diseased;

(b) if it is dead or dying, except in the case of an animal which is dying from injury sustained in an accident and which is brought to such slaughter-house or stock-yard immediately after the accident;

(c) if it is or is suspected to be with young or in milk;

(d) if it is a lamb or kid below the age of four months;

(e) if it is a calf, unless it is certified by the Superintendent of the Government or Municipal Vaccine Depot to have passed through such Vaccine Depot.

15. (i) Every slaughter-house or stock-yard shall have a special pen attached therto for the segregation of animals which are suspected of being diseased.

(ii) Every animal which upon examination is suspected of being diseased shall at once be removed to such special pen and kept there under observation for such period as may be necessary to ascertain whether it is so diseased or not.

(iii) The cost of proper maintenance of animal or animals kept in such pen shall be paid by the person bringing the animal or animals to such slaughter-house or stock-yard.

16. Every animal which shall be found to be suffering from an infectious or contagious disease shall forthwith be seized by the Superintendent and removed to the municipal knackery, or such other place as the Commissioner may from time to time appoint, to be there destroyed and disposed of in such a manner as to prevent any portion of the carcass being used as human food. A report of every such case shall be made to the Health Officer forthwith.

17. A dying or dead animal brought to a slaughter-house shall be treated as an animal suffering from an infectious or contagious disease, provided that an animal which is dying as the result of an accident and is brought to a slaughter-house immediately after the accident, may, if upon examination, be found to be free from any disease, be allowed to be slaughtered for human food.

18. The carcass of every animal which has been slaughtered in a slaughter-house shall be immediately skinned and cleaned by the person who slaughtered it, or brought it to the slaughter-house and shall, after it has been skinned, be carefully examined by the Superintendent to ascertain if it is free from disease. The skin shall likewise be carefully examined by the Superintendent to ascertain if it is free from disease.

19. Every carcass or skin which, upon examination, is found to be diseased or shows symptoms of disease shall be seized by the Superintendent and with the consent of the owner, or the person who brought the animal to the slaughter-house, be forthwith destroyed in such manner as to prevent its being used for human food, or if such consent be not obtained, then if the carcass is, in the opinion of the Commissioner, the Health Officer or District Health Officer, diseased, it may likewise be destroyed. The expenses incurred in destroying such animal shall be paid by the person in whose possession it was at the time of its seizure.

20. All meat, lungs, glands and offal which, upon examination, are found to be diseased or are unfit for human food, shall be seized and dealt with in the same manner as a diseased carcass.

21. Immediately after examination every skinned carcass which is found to be free from disease and fit for human food shall be stamped over the body by the Superintendent before the carcass is quartered or cut up. Such stamping shall be done with such stamp and dye as may from time to time be prescribed by the Health Officer with the approval of the Commissioner.

22. Skinned carcasses qualified for stamping shall be grouped into three classes—No. 1, No. 2 and No. 3, according to the quality of the meat, and stamps shall be provided for each class. Every carcass shall be stamped with the stamp denoting the class to which it is assigned according to the quality of the meat obtained therefrom. The Superintendent shall decide to which class each carcass is to be assigned, and in the event of any dispute the matter shall be referred to the Health Officer, whose decision shall be final:

Provided that the carcasses of she-goats and ewes shall in no case be stamped with Class I.

23. No person shall blow by insufflation or any other process the carcass of any animal slaughtered for human food. Every person assisting in this process shall be held to have committed an offence under this bye-law.

24. Every animal slaughtered in a slaughter-house shall be slaughtered in such a manner as to prevent the blood of the animal from flowing over the floor.

25. The skins, entrails and offal of slaughtered animals which have been found to be free from disease shall be removed to a special offal room in the slaughter-house provided for the purpose and shall be washed and cleaned there before their removal.

26. All refuse and offal rejected by the owners of slaughtered animals shall be deposited by them or their assistants in a municipal offal truck provided for the purpose and shall be disposed of as the Commissioner may direct.

27. The solid contents of the entrails of slaughtered animals shall not be washed into the sewers, but shall be removed by the person who slaughtered the animals or their assistants and deposited in a municipal offal truck provided for the purpose and shall be disposed of as the Commissioner shall direct.

28. Every person who slaughters an animal in a slaughter-house shall cause that portion of the floor of the slaughter-house where the animal has been slaughtered and any adjoining wall to be thoroughly washed and cleaned immediately after the slaughter of the animals, so as to prevent the absorption therein of any blood or liquid refuse or filth which may be spilled or splashed therein or any offensive or noxious matter which may be deposited thereon or brought in contact therewith.

29. All skins, offal and entrails, etc., left at a slaughter-house after such hour as the Superintendent may with the sanction of the Commissioner prescribe shall be considered to be refuse and shall become the property of the Corporation and shall be disposed of as the Commissioner may direct.

30. (i) No person shall sell meat in retail on or within the premises of a slaughter-house. Skins, head and offal may be sold in the yard of a slaughter-house.

(ii) A fee shall be charged for wholesale sale of meat or for sale of skin, head and offal at such rate as has been or may from time to time be fixed by the Corporation.

31. All meat entrails and offal which are fit for human food and are permitted to be removed from a slaughter-house shall be removed in covered baskets and carts, which, together with their covers, shall be kept clean and shall be produced daily to the Superintendent or his assistants, whose duty it shall be to inspect them and see that they are kept clean.

32. Every person who slaughters in a slaughter-house any animal the carcass whereof is found to be free from disease and fit for human food shall every day before leaving the slaughter-house obtain from the Superintendent a receipt stating the number and class of the animals slaughtered by him and the date and time when they were slaughtered and the name of the person who slaughtered the animals, and counterfoils of all such receipts shall be filed in and kept by the Superintendent.

33. No person suffering from leprosy, sores or any disease of the skin or any contagious or infectious disease shall enter a slaughter-house or any part of the premises or any stock-yard appertaining thereto.

34. No dog shall be admitted into a slaughter-house or any stock-yard appertaining thereto. Every dog found therein shall be at once made over to the Police to be dealt with as a stray dog.

35. No animals, other than those which the Superintendent has passed as fit for slaughter and which are intended for immediate slaughter, shall be brought into that portion of the slaughter-house which shall be set apart for the slaughter of the animals.

36. No person shall make a noise, fight or quarrel or use insulting, abusive or obscene language in a slaughter-house or any stock-yard appertaining thereto. Any person contravening this bye-law may be summarily removed from such slaughter-house or stock-yard by the Superintendent or his assistants.

37. No employee of the Corporation shall ask for or receive any gratuity in money or otherwise from any person making use of a slaughter-house or any stock-yard appertaining thereto.

38. No person except an employee of the Corporation appointed or other person authorised for the purpose and placed under the control of the Health Officer shall be permitted to perform any religious rights or duties connected with the slaughtering of animals having regard to the views of the religious community to which he belongs.
